

February is Teen Dating
Violence Awareness Month

Healthy Teen Dating: What Every Parent Needs to Know

1 in 3 teens will experience an
abusive dating relationship

Only 33% of teens who were in an
abusive relationship told anyone
about the abuse

In this workshop, parents will learn about:

- Elements & characteristics of healthy dating relationships
- How to identify "red flag" behaviors
- Unhealthy relationship dynamics rooted in power and control

This program will also help parents start conversations about dating relationships with their children and understand prevention strategies.
